License model

Licenses

The first license is a floating license and allows the use of one (1) simultaneous access. Starting with the follow-up license, you can choose between floating and personalized versions. The floating license enables the simultaneous access of so many users, as many licenses as you own. The personalized variant is tailored to a specific user. The follow-up licenses are available at significantly reduced prices compared to the first licenses.

Service Contracts

Safexpert's service contracts include all software updates that keep the system up-to-date. The term of the service contracts is 12 months and has to be renewed annually.

Safexpert additional products

The turbo for your processes

In combination with our additional products you use the full potential of Safexpert. You decide which additional products you need!

Here you get an overview of which additional products are available. Detailed information and prices can be found on the following pages.

Data packages

Data packages provide the basis for your standards research as well as for the up-to-dateness monitoring of your projects in Safexpert. The data of the respective packages contain the information of those standards that are included in the EU Official Journal according to the directives listed below.

Details: page 10

Standards packages

Standards packages are collections of particularly frequently shared full-text documents. Through direct integration in Safexpert, an optimal workflow between risk assessment / design and standards research is achieved.

Details: page 11

Document structures

Which section in which standard has changed - and which section in a subsequent standard belongs to it? Based on this data, digital engineering is accelerated enormously, e.g. with the Safexpert Change Assistant or the Safexpert Document comparison.

Details: page 14

All European original texts of the standards available from IBF have been produced and tested by Austrian Standards International as ÖNORM. IBF owns the worldwide distribution rights for all offered standards.

Please refer to our homepage for the detailed terms of use. We will also be happy to send them to you on request.

Checkpoint libraries

Saving time during testing. This is the goal of checkpoint libraries for the Safexpert CheckManager. Experts from the industry have created checkpoint libraries for various use cases (e.g. acceptance tests, final inspections, etc.) based on EU directives or standards. This allows you to concentrate on your core business and not lose valuable time creating templates.

Of course, you can adapt the purchased checkpoint libraries as you wish.

Overview of available checkpoint libraries: page 14

Data packages

DATA PACKAGE MACHINERY DIRECTIVE (EU) ^{1,2}  4020-WV-EL 545 €	DATA PACKAGE LOW VOLTAGE DIRECTIVE (EU)  4024-WV-EL 545 €	DATA PACKAGE EMC DIRECTIVE (EU)  4025-WV-EL 545 €

Seminars and training sessions about product safety

Expert knowledge and practical know-how for manufacturers of machinery, plants and electrical equipment.

For more than 30 years, we have relied on two proven principles in knowledge dissemination that guarantee you the highest benefit:

- › **Maximum information in the shortest amount of time**
- › **Support for self-help**

Select the events from our carefully arranged offering that suit your needs the best. We gladly assist you in selecting the most suitable modules for your company. For our complete seminar program, please visit: www.ibf-solutions.com/en/seminars

CE practice seminars
